## BRIEFLY

### School search for the entrepreneurs

Enterprising young people from 80 secondary schools across Yorkshire and the Humber are taking part in the first stage of a competition designed to inspire and develop the region's future business leaders.

In the coming weeks teams from each school will have to put together a professional bid to bring a prestigious two-day conference to their area, involving 250 delegates.

The winner will secure a place in the finals of this year's Real Business Challenge, the conclusion to Enterprise Week on November 21.

Now in its fourth year, the Real Business Challenge, developed by Coca-Cola Enterprises, supports the government's commitment to encourage enterprise in schools and is funded by Yorkshire Forward.
